PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of professional experience building enterprise-grade web applications. Specialized in Laravel and React.js with proven expertise in developing scalable News Portals, ERP Systems, HRM Platforms, POS Solutions, and Restaurant Management Systems. Strong track record of delivering high-impact projects from concept to deployment while mentoring junior developers. Experienced in payment gateway integration (bKash, Nagad, SSLCommerz), real-time systems using WebSocket, and hardware integration with ZKTeco biometric devices.

KEY TECHNICAL IMPLEMENTATIONS

Real-time Communication Systems: Architected WebSocket-based systems using Laravel Broadcasting with Pusher for live chat, push notifications, and real-time content updates.

Payment Gateway Integration: Successfully integrated and tested bKash, Nagad, and SSLCommerz APIs handling secure payment processing.

Hardware Integration: Connected ZKTeco biometric devices to automatically fetch and sync employee attendance data in real-time.

Asynchronous Processing: Built large file upload system using Laravel Queue Jobs to handle PDF, image, and video processing asynchronously.

Large Data Management : Optimized 10M+ record handling with database indexing,caching, queue-based batch processing, and cursor pagination to ensure high performance and minimal memory usage.

TECHNICAL SKILLS

Backend Development:HP, Laravel Framework, RESTful API Development,

Frontend Development: JavaScript ES6+,React.js,Next.js, HTML5, CSS3, Tailwind, Bootstrap, Responsive Design, Progressive Web Apps (PWA).

Database: MySQL, Database Design, Query Optimization

Laravel Architecture Patterns:: Service Pattern, Repository Pattern

Version Control: Git, GitHub, Branching Strategies, Code Review Processes

PROFESSIONAL EXPERIENCE

Junior Developer

TBN24 | Dhaka, Bangladesh

August 2023 – Present

- Architected and deployed **TBN24.com**, a real-time news portal serving thousands of daily users with breaking news updates, multimedia content management, and push notification system.
- Developed a comprehensive **HRM System** including payroll processing, biometric attendance tracking via ZKTeco integration, leave management, and employee self-service portal.
- Implemented a **Promotion System** featuring online examination module, automated grading engine, test bank management, and detailed result analytics.
- Integrated multiple payment gateways including **bKash, Nagad, and SSLCommerz** ensuring secure and reliable transaction processing.
- Optimized database queries and implemented caching strategies to significantly reduce page load time.

Technologies Used: Laravel 9/10, React.js, MySQL, Bootstrap 5, WebSocket, Laravel Broadcasting, Pusher, bKash API, Nagad API, SSLCommerz, SourceTree

Junior Software Engineer

Massive Star Studio Ltd | Dhaka, Bangladesh

March 2022 – August 2023

- Promoted from intern to full-time engineer within 6 months based on exceptional performance and technical contributions.
- Led development of **FoodNet**, a complete restaurant management solution featuring POS system, inventory management with FIFO/LIFO tracking, recipe costing engine, employee management, and financial reporting dashboards.
- Designed and developed **Mirpur Club ERP System** streamlining organizational workflows including membership management, billing, facility booking, and event management for 500+ members.
- Built **Bein & Bein Requisition Platform**, an eCommerce-style internal requisition system with multi-stage approval workflows and budget control mechanisms.
- Developed **Food Calculator**, an internal tool for company-wide meal ordering and budget management.
- Mentored 3 junior developers by providing code reviews, technical guidance, and hands-on training on Laravel and React.js best practices.

Technologies Used: Laravel 9, React.js, React Native, Expo CLI, MySQL, Git

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science and Engineering

Pabna University of Science and Technology, Pabna, Bangladesh

2016 – 2021

NOTABLE PROJECTS

TBN24 – Real-Time News Portal

Responsive CMS-powered news platform with real-time breaking news alerts, category management, multimedia support, and social media integration. Serves thousands of daily users with 99.8% uptime.

Live URL: <https://tbn24.com>

FoodNet – Restaurant Management System

Comprehensive restaurant management ecosystem including POS system, inventory tracking with FIFO/LIFO, recipe costing, employee management, and financial reporting. Handles BDT 2M+ monthly transaction volume with 80% improvement in inventory accuracy.

HRM System with Biometric Integration

Complete HR solution with automated payroll processing, ZKTeco biometric attendance synchronization, leave management workflows, and employee self-service portal. Reduced manual HR tasks by 60% and operational costs by 40%.

LEADERSHIP & ACHIEVEMENTS

- Mentored 3 junior developers on software design patterns, clean code principles, and Laravel/React.js best practices
- Promoted from intern to Junior Software Engineer within 6 months based on exceptional performance
- Successfully delivered 10+ enterprise-grade applications serving real business needs on time and within budget
- Established code review processes and Git workflow improving team velocity by 35%
- Specialized in Bangladesh-specific integrations including bKash, Nagad, and ZKTeco biometric systems
- Achieved 99.8% platform uptime for mission-critical news publishing platform
- Reduced page load time by 65% through database optimization and caching strategies
- Improved code reusability by 70% through implementation of service layer pattern
